

Greetings from the Ore.e Refineries

Anti-Imperial Moustache Wax

BETA program.

http://oree.storijapan.net/praxis/moustache_wax/

This shipment includes a batch of experimental moustache wax we invite You to test. To receive unbiased feedback from our testers, we will not reveal the ingredients used in this batch of wax.

When sending us feedback on how this wax worked for You, please refer to the batch serial which is written on the wax container. This serial gives us the required data in identifying the ingredients and fabrication process used to make the wax. You may also refer to the serial number in case You want to acquire **an edition of Anti-Imperial Moustache Wax**. Bear in mind that some editions we are experimenting with are NOT based only on ingredients collected from in the Baltic Sea Drainage Basin environment and some some may be based on petrochemicals.

After testing this moustache wax, fill a survey online to tell us how You felt about it

If You experience any allergic symptoms during the testing phase STOP using the wax and notify the Ore.e Refineries Anti-Imperial Moustache Wax “Baltic” development-team management (00-350-50-5729743). We are currently experimenting with two types of recipes. Water soluble and non-soluble sorts. This wax is type:

___ SOLUBLE. *Apply the wax with your fingers, comb and/or a brush. This wax can be washed away with water. If the wax dries, apply a drop of water and remix the ingredients.*

___ NON-SOLUBLE. *Carve a small portion of the wax with the nail of Your index finger from the container. Soften the piece by rolling it between Your fingers. Distribute the wax on Your moustache using fingers, comb and/or a brush. When forming the moustache You can further heat the the wax using a blowdryer. This wax is a tad hard to wash away. Use oil soap if nessessary. It is recommended that You allow the wax to accumulate on Your mustache.*

This product has beeswax as an ingredient Yes No
